1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 2, line 6, after "technique", delete the period "." and add a period "." at the end of claim 2.

In claim 6, line 6, after "technique", delete the period "." and add a period "." at the end of claim 6.

2. The following is an examiner's statement of reasons for allowance: None of the prior art discloses the claimed invention. Specifically, independent claim 1 requires inventive features of "projection means for projecting points of extracted main colors on a three-dimensional space onto a plane by using a conversion expression; candidate narrowing down means for removing combinations that need not be combined according to features of distance between main colors projected onto a two-dimensional space; and combination generation means for combining images from candidates narrowed down and generating an image area candidate". Independent claims 5, 9 require similar inventive features. The inclusion of such features, in combination with other features, in the claims renders the claims allowable. The prior art references found are U. S. Patents 4,998,286, 5,459,797 and 6,711,287. These references fail to disclose the claimed invention.
